How to use the sizing chart (below). Pick out one of your favorite/most comfortably fitting jersey. Lay it, front side down, on a flat surface so that you will be measuring the back of the jersey and using English/Inches – not metric, measure the parts of the jersey detailed below. [Note all measurements are "close," as these fabrics stretch a bit]. Then, to select your size, using the chart below, find the measurements that come closest to your favorite jersey:

1. **Shoulder:** From where the shoulder seam meets the top of the sleeve seam across the back of the jersey.
2. **Chest:** From where the side-seam (or middle of the jersey if there are side panels) meets the bottom of the sleeve seam (arm-pit-to-arm-pit) across the back.
3. **Bottom:** Across the bottom-most part of the jersey across the back (below the pocket).
4. **Length:** From the seam at the bottom of the collar, down the center of the back to the bottom of the jersey.
